

[YOUR FULL NAME]

Cloud Solution Architect | Head of DevOps | Kubestronaut | 15× Cloud Certified

Lahore, Pakistan | your.email@gmail.com | linkedin.com/in/yourprofile | github.com/yourgithub

PROFESSIONAL SUMMARY

Strategic technology leader and Kubestronaut with 10+ years driving enterprise-grade DevOps transformations and multi-cloud architecture across AWS, Azure, and GCP. Founded and scaled a 30-member DevOps department from the ground up — delivering automation-first, security-hardened solutions for global enterprises. Proven track record of reducing deployment cycles by 40%, cutting infrastructure costs by 30%+, and directly influencing \$1M+ in project wins through technical pre-sales leadership. Recognized community leader and speaker across CNCF, AWS, GDG, and DevOps Pakistan ecosystems.

KEY ACHIEVEMENTS & IMPACT

- Founded and scaled a 30-member DevOps department, establishing processes, tooling, hiring pipelines, and engineering culture from zero.
- Reduced deployment cycles by 40% and cut infrastructure costs by 30%+ through intelligent automation and multi-cloud optimization.
- Led pre-sales technical discovery sessions and cloud cost estimation, directly influencing \$1M+ in new project wins.
- Reduced Mean Time to Recovery (MTTR) by 40% via automated monitoring, alerting, and observability platforms.
- Established CI/CD pipelines cutting release cycles by 30% and improving software quality KPIs by 20%.
- Trained and mentored 50+ engineers and interns, bridging the academia-to-industry skills gap through structured DevOps programs.
- Led TFS-to-Azure DevOps migration, boosting release velocity by 50% and modernizing the entire delivery workflow.
- Automated Windows Server provisioning — reducing process time from 2+ hours to under 5 minutes using scripting and IaC.

PROFESSIONAL EXPERIENCE

TKXEL — Lahore, Pakistan

Cloud Solution Architect | Head of DevOps • Tkxel

Mar 2024 – Present

Lahore, Pakistan

- Architect end-to-end multi-cloud solutions (AWS, Azure, GCP) ensuring security, scalability, and compliance with global regulatory standards.
- Lead infrastructure and security architecture for enterprise clients, managing a team of Cloud Engineers, SREs, and DevOps professionals.
- Drive cloud FinOps strategies delivering 20–30% annual infrastructure cost reductions through rightsizing, reserved capacity, and governance.
- Own client-facing pre-sales discovery sessions and technical proposals, influencing \$1M+ in new project pipeline.
- Champion automation-first engineering culture across teams — from zero-touch IaC provisioning with Terraform to GitOps-driven deployments.
- Oversee DevSecOps practices, integrating security scanning, policy-as-code, and compliance automation into delivery pipelines.

Manager DevOps | Portfolio Manager & Head of Department • Tkxel

May 2022 – Feb 2024

Lahore, Pakistan

- Managed the full DevOps portfolio, providing technical and delivery leadership across 10+ concurrent enterprise projects.
- Spearheaded automation strategies that reduced deployment times by 35% and significantly improved operational efficiency.
- Established robust CI/CD pipelines using Jenkins, GitLab CI, and Azure DevOps, cutting release cycles by 30%.
- Implemented multi-cloud strategies and FinOps governance reducing operational costs by 20% annually.
- Designed and delivered DevOps training programs, mentoring 50+ engineers and interns across technical and professional skills.
- Partnered with leadership to define roadmaps, OKRs, and engineering standards across the DevOps practice.

Principal DevOps Engineer | Technical & Delivery Lead • Tkxel

May 2021 – May 2022

Lahore, Pakistan

- Served as technical lead on flagship cloud migration and modernization engagements for high-profile enterprise clients.
- Automated infrastructure provisioning and configuration management using Terraform and Ansible, improving delivery velocity by 3x.
- Deployed and maintained comprehensive observability stacks (Prometheus, Grafana, ELK, Datadog), reducing MTTR by 40%.
- Designed secure, scalable Kubernetes-native architectures using Helm, service meshes, and GitOps patterns on EKS, AKS, and GKE.
- Led migration of legacy on-prem workloads to AWS and Azure with security-first, compliance-driven architecture.
- Collaborated with clients on technical discovery, architecture review boards, and delivery planning.

XISYS — Lahore, Pakistan

Senior DevOps Engineer • Xisys

Feb 2020 – Apr 2021

Lahore, Pakistan

- Implemented CI/CD pipelines with Jenkins and AWS CodePipeline, transforming deployments from multi-hour manual processes to automated minutes-long pipelines.
- Automated infrastructure provisioning across multi-cloud environments using Terraform and Ansible for consistency and repeatability.
- Deployed and managed containerized workloads on Kubernetes (EKS/AKS), improving application scalability and system resilience.
- Established system hardening, security baselining, and compliance practices aligned with CIS and NIST frameworks.
- Configured and maintained centralized logging and monitoring solutions for proactive incident detection and resolution.

CUREMD — Lahore, Pakistan

Sr. SCM Engineer → SCM Engineer → Assistant SCM Engineer •

Nov 2015 – Feb 2020

CureMD

Lahore, Pakistan

- Progressed from Assistant to Senior SCM Engineer over 4+ years, consistently taking on expanded technical and leadership responsibilities.
- Led the migration from TFS to Azure DevOps, improving release velocity by 50% and modernizing the entire development workflow.
- Automated Windows Server provisioning using scripting and configuration management, cutting provisioning time from 2+ hours to under 5 minutes.
- Managed software releases, branching strategies, and build automation for a HIPAA-compliant healthcare SaaS platform serving global clients.
- Established release management processes and quality gates, improving deployment reliability and reducing rollback incidents.

TECHNICAL SKILLS & COMPETENCIES

Cloud Platforms	AWS, Microsoft Azure, Google Cloud Platform (GCP)
Containers & Kubernetes	Kubernetes (EKS, AKS, GKE, on-prem), Docker, Helm, Kustomize, Istio Service Mesh
Infrastructure as Code	Terraform, Ansible, AWS CloudFormation, Pulumi
CI/CD & GitOps	Jenkins, GitLab CI, Azure DevOps, GitHub Actions, AWS CodePipeline, BitBucket, ArgoCD, FluxCD
Scripting & Languages	Python, Bash/Shell, PowerShell, Groovy, YAML, HCL, JSON
Observability & APM	Prometheus, Grafana, Datadog, Dynatrace, New Relic, ELK/EFK Stack, Loki, CloudWatch, Azure Monitor, OpenTelemetry, Jaeger, Splunk
Networking & Security	VPC, Load Balancers, WAF, Zero-Trust, Private Link, VPN, IAM, RBAC, SSO, OAuth2, Active Directory, TLS/SSL, CDN (CloudFront, Azure Front Door, Akamai, Cloudflare)
Databases	MySQL, PostgreSQL, MS SQL Server, MongoDB, DynamoDB, Redis, Cassandra
OS & Systems	Linux (Ubuntu, CentOS, RHEL, Amazon Linux), Windows Server Administration
Compliance & Frameworks	CIS, NIST, ISO 27001, SOC 2, HIPAA, GDPR
Incident Management	PagerDuty, Opsgenie, ServiceNow
Leadership & Strategy	Team Building, Mentoring, Pre-Sales, FinOps / Cost Optimization, Portfolio Management, Delivery Management

CERTIFICATIONS — 15 ACTIVE CLOUD & KUBERNETES CERTIFICATIONS

✓ AWS Certified Generative AI Developer – Professional	✓ AWS Certified Security – Specialty	✓ AWS Certified Solutions Architect – Professional
✓ AWS Certified DevOps Engineer – Professional	✓ Microsoft: Azure Solutions Architect Expert	✓ Microsoft: DevOps Engineer Expert
✓ Microsoft: Azure Administrator Associate	✓ Google Cloud: Professional Cloud Architect	✓ Google Cloud: Professional Cloud DevOps Engineer
✓ CKS: Certified Kubernetes Security Specialist	✓ CKA: Certified Kubernetes Administrator	✓ CKAD: Certified Kubernetes Application Developer
✓ KCSA: Kubernetes & Cloud Native Security Associate	✓ KCNA: Kubernetes & Cloud Native Associate	✓ Kubestronaut (All 5 Kubernetes Certifications)

AWARDS & COMMUNITY LEADERSHIP

- Change Enabler Award — Tkkel: Recognized for driving transformative DevOps culture, delivery excellence, and organizational impact.
- Employee of the Month — CureMD: Awarded for outstanding technical delivery, proactive ownership, and cross-team leadership.
- Founder & Leader — DevOps Pakistan Community: Building Pakistan's premier DevOps practitioner network focused on knowledge sharing and ecosystem growth.
- Speaker, Panelist & Organizer — Delivered impactful sessions and hands-on workshops at CNCF events, Kubernetes Community Days, AWS Community, and Google Developer Groups (GDG) nationally.
- Multiple recognitions for community leadership, mentorship, and ecosystem-building contributions across cloud and DevOps domains.

VOLUNTEERING & ACADEMIC ENGAGEMENT

Member, Board of Studies (External Industry Expert)*Feb 2026 – Present***University of Kamalia**

- Appointed as an External Industry Expert to the Board of Studies, bridging the gap between academic curriculum and real-world market demands.
- Auditing and validating the Computer Science curriculum to ensure graduates are Industry 4.0-ready with relevant, employer-aligned competencies.

Mentor — UKM Mentorship Program*Feb 2026 – Present***University of Kamalia**

- Selected for the UKM Mentorship Program to foster inclusive, high-performance learning environments for the next generation of tech professionals.
- Academic Support: Helping students translate complex technical concepts into practical, project-based applications aligned with industry standards.
- Personal Development: Mentoring on soft skills including stakeholder communication, time management, and professional networking.
- Directly contributing to students' academic performance and professional confidence, shaping future industry innovators.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

COMSATS University Islamabad • Lancaster University, England

*2011 – 2015**Lahore, Pakistan*
